JCM 日本金銭機械株式会社

\* estimated rate at the beginning of the Fiscal 2009

2

As you can see, net sales and operating income decreased from last year. This is due to the lower sales in the North American gaming markets and the shrinkage of domestic amusement market as a result of laws amendment.

However, ordinary income and net income increased. Ordinary income increased because the Company received interest refund under the mutual agreement of transfer pricing taxation.

Net income before tax improved substantially due to the extraordinary loss posted in previous year.

## Divisional Sales 2009

Years ended March 31, 2009 and 2008

(Millions of yen)

Sales	2008	2009	Changes	
	Results	Results	Changes	%
Bill Acceptor	21,767	20,760	-1,007	-4.6%
North America	11,047	9,294	-1,753	-15.9%
Europe	8,384	9,156	772	9.2%
Asia	405	119	-286	-70.6%
Japan	1,931	2,191	260	13.5%
Amusement Equipment	5,500	4,029	-1,471	-26.7%
Equipment Item	3,178	2,736	-442	-13.9%
Machines	2,322	1,293	-1,029	-44.3%
Other	1,275	782	-493	-38.7%

Negative performance in the North America are generally considered as the results of financial crises, which initiated last fall. However, impacts of the turmoil on the Company's financial result were limited since the fiscal year of a subsidiary in the region ends on December 31.

Lower sales results in 2009 were mainly caused by foreign exchange revaluation as described in slide 4. Meanwhile, Europe did well continuously since last year.

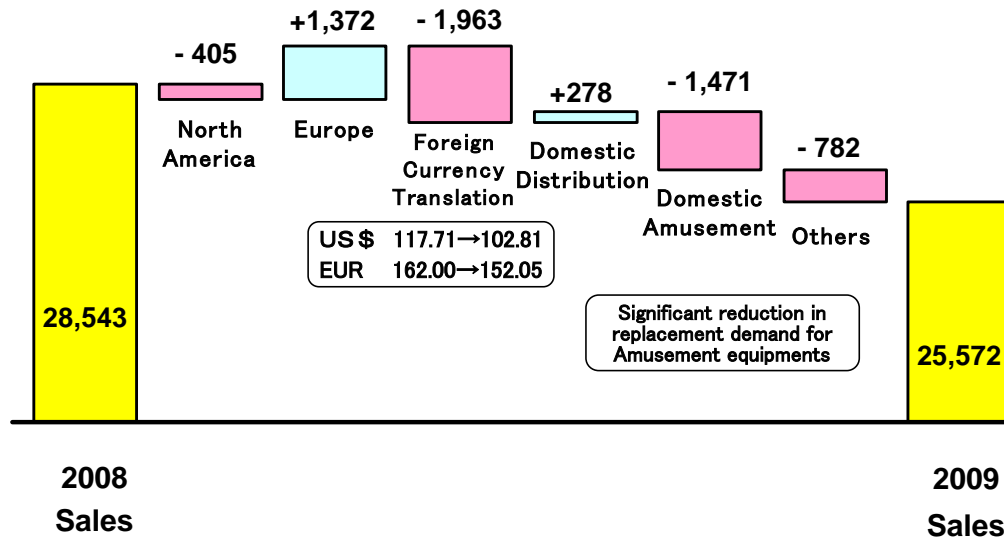

In the amusement business, the market shrinkage continued; sales and maintenance of machines decreased.

As the Company emphasizes "selection and focus" of businesses, it withdrew from the business of fire resistant safes, and downsized the operations of cash registers and environmental sanitation. As a result, "Other" decreased.

## Sales Analysis 2009 (comparison with the previous fiscal year)

Years ended March 31, 2009 and 2008

(Millions of yen)

Influences of the Japanese yen appreciation are noticeable in sales and operating income. They caused the dollar and euro denominated sales decreased by 1,364 billion yen and 599 million yen respectively.

## Operating Income Analysis 2009 (comparison with the previous fiscal year)

Years ended March 31, 2009 and 2008

(Millions of yen)

## Geographical Segment Information 2009

Years ended March 31, 2009 and 2008

(Millions of yen)

		2008	2,009	Changes

<b>Total non-current assets</b>	<b>7,747</b>	<b>5,181</b>	<b>-2,566</b>	<b>Total net assets</b>	<b>27,885</b>	<b>25,300</b>	<b>-2,585</b>
<b>Total assets</b>	<b>31,953</b>	<b>29,711</b>	<b>-2,242</b>	<b>Total liabilities and net assets</b>	<b>31,953</b>	<b>29,711</b>	<b>-2,242</b>

This year, total net assets dropped substantially by 2,585 million yen from previous year.

## Net Assets Analysis

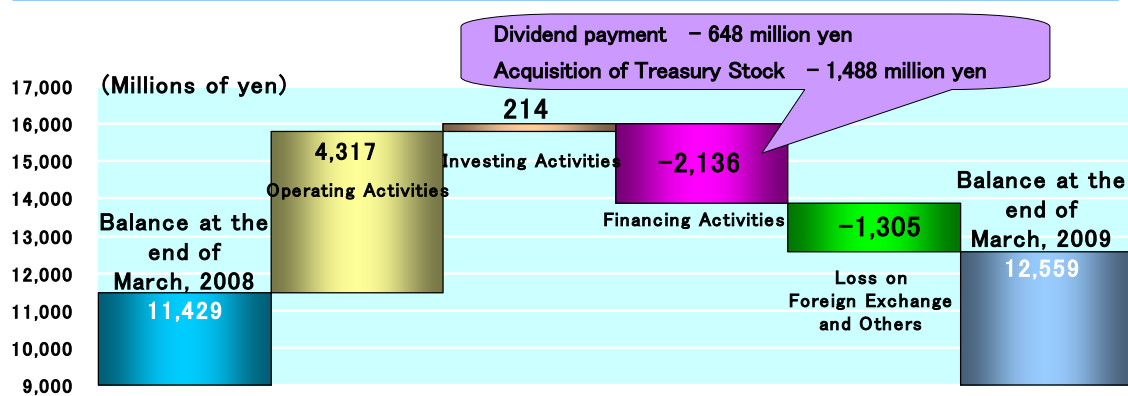

Years ended March 31, 2009 and 2008

(Millions of yen)

Net assets increased with the current year's net income, which is 2,009 million yen. However, the increase was offset by the acquisition of treasury stock (1,488 million yen) and payment of dividends (646 million yen). In addition, the appreciation of the yen developed rapidly during the fiscal year; therefore, there was a loss in foreign currency translation (2,339 million yen). This led to the significant reduction in net assets.

## Cash Flow Analysis 2009

Years ended March 31, 2009, 2008, and 2007 (Millions of yen)

Cash Flow: -	2007	2008	2009
Operating Activities	1,779	3,911	4,317
Investing Activities	-1,759	-994	214
Financing Activities	-947	-695	-2,136
Gain/Loss in Foreign Exchange and Others	211	-277	-1,305
Net Increase/Decrease in Cash	-716	1,943	1,090
Balance at the end of the fiscal year	9,526	11,469	12,559

## Topics

---

- Transfer Pricing Taxation
- Lawsuit

In 2005, the Company paid 1.6 billion yen corporate income tax etc. under the transfer pricing taxation. Recently, the mutual agreement and APA (Advance Pricing Agreement) have been met; therefore, full amount of tax, which had been a duplicate payment, is confirmed to be refunded. As a result, there was a minor impact of transfer pricing taxation on the business performance.

A competitor in North America filed a lawsuit against the Company for patent infringement in 2005. The scale of the lawsuit had been enlarged over time; the Company filed a countersuit, and the same competitor filed another similar lawsuit in Germany. However, in the initial trials of every case, our affirmation was accepted basically.

The Company thinks that these verdicts are significance despite the possibility that the opponent party may appeal against the decision in the future. The Company will continue to prove its validity.

## Consolidated Financial Forecast 2010

Year ended March 31, 2009 and Year ending March 31, 2010

(Millions of yen)

	2009	2010		
	Results	Forecast (Full-year)	Forecast (First half)	Forecast (Second half)
Sales	25,572	21,500	9,900	11,600
Operating Income	2,561	1,440	290	1,150
Ordinary Income	3,001	1,420	280	1,140
Net Income before tax	2,935	1,420	280	1,140
Net Income	2,009	1,000	10	990

Expected exchange rates USD \$1/JPY ¥95 Euro €1/JPY ¥120

Sales	2009	2010		
	Results	Forecast (Full-year)	Forecast (First half)	Forecast (Second half)
Bill Acceptor	20,760	15,000	7,200	7,800
North America	9,294	6,250	2,880	3,370
Europe	9,156	6,300	3,160	3,140
Asia	119	-	-	-
Japan	2,191	2,450	1,160	1,290

Equipment Item	2,736	5,080	2,010	3,070
Machines	1,293	920	440	480
Other	782	500	250	250

In the fiscal year 2010, the Company forecasts that sales and net income shall be reduced by 16% and 50% respectively, compared to 2009. Foreign exchange rates used in the forecast are ¥95/\$1 and ¥120/€1.

The influences of foreign exchange rates shall be severe; Dollar and Euro denominated incomes shall drop by 514 million yen and 1,629 million yen respectively. We lay our emphasis on the second half of the year, and expect that the reduction in sales and profits will bottom out during the first quarter. In the second half of 2010, business performance would bounce back gradually; however, it would not reach any level on before 2008. We expect a full scale recovery in the fiscal year 2011.

In the fiscal year 2009, influences of the global financial crises were limited; however, we are greatly affected this year. The worldwide reduction in demands leads to the shrinkage of investments in casino industry. Especially, downturn in the North American gaming market is significant; it is difficult to foresee its market trend.

In the European market, the Company expects that the drop in demand shall not be as serious as the North America. This is because a small-scale AWP market is the main business in the European markets, instead of large-scale casinos, and also industrial users such as finance or transportation businesses; they cushion the influences of flagging casino markets on our business performance. Additionally, European countries have different rules in regulating the gaming industry, and emerging markets continuously create demands in Eastern Europe. Therefore, such diversification of markets is one of the factors that offset the drop in demand. Accordingly, the Company thinks that European market is the one we should focus on, and we are determined to strengthen the relationship with customers by improving the sales and service systems.

## Geographical Segment Forecast 2010

Year ended March 31, 2009 and Year ending March 31, 2010

(Millions of yen)

		2009	2010		
		Results	Forecast (Full-year)	Forecast (First half)	Forecast (Second half)
Japan	Sales	19,238	16,950	6,670	10,280
	Operating Income	202	150	-790	940
North America	Sales	9,344	6,250	2,880	3,370
	Operating Income	457	0	0	0
Europe	Sales	9,254	6,300	3,160	3,140
	Operating Income	1,053	620	380	240
Asia	Sales	8,367	4,300	1,660	2,640
	Operating Income	316	110	20	90
Elimination	Sales	-20,631	-12,300	-4,470	-7,830
	Operating Income	531	560	680	-120
Consolidated	Sales	25,572	21,500	9,900	11,600
	Operating Income	2,561	1,440	290	1,150

Meanwhile, in the domestic amusement industry, business attitudes of pachinko parlors are getting positive since its market shrinkage has begun to bottom out. However, the Company, which has a pachisuro-oriented product composition, should stay on guard because pachinko parlors' investments and preference of players will continue to focus on the pachinko market. Also, the attitudes of financial institutions to offer loans are still cautious.

In the domestic distribution market, the Company continuously focuses on a business operation to cater OEM customers and tries to ensure sufficient orders.

(Millions of yen)

## Operating Income Forecast Analysis 2010 (comparison with the previous fiscal year)

Year ended March 31, 2009 and Year ending March 31, 2010

(Millions of yen)

## Management Improvement Measures

In December 2007, the Company announced a new medium-term business plan in which our goals are to attain net sales of 33 billion yen, operating income of 4.5 billion yen, and net income of 2.5 billion yen in the fiscal year ending March 31, 2011.

However, the overseas gaming markets, which is one of the Company's core businesses, were adversely affected by worldwide recession caused by the U.S. financial crisis which initiated last fall. Environments surrounding the Company will become increasingly severe.

As a result, the Company thinks that there are needs to review the ongoing medium-term business plan and will closely monitor the economic and demand trends.

Accordingly, the Company thinks that it is important to create a structure which can generate profits even sales revenue drops substantially. The top priority for this year is to reduce the manufacturing costs and fixed costs.

Specifically, our focus would not be limited to the reduction of manufacturing costs or consolidation and reallocation of bases. Also, we are working on reduction of personnel costs through restructuring in personnel, reducing salaries of directors and employees, and promotion of early retirement program. At the same time, the Company is actively looking for investment projects which aim at improving profitability.

The Company currently focuses on development of new products, opening new business fields, business alliance, M&A, and enhancements of sales and development division in Kanto area of Japan.

## New Product

The company continues to focus on development of the next generation products which targeted toward gaming and commercial markets.

This year, we released a bill validator with recycler function for gaming markets, especially designed for the Europe AWP markets. We are in readiness for launching the next generation bill validators for gaming markets within the end of this fiscal year.

Furthermore, in the commercial markets, the Company is promoting development of special bill validators and they also will be released this fiscal year.

In addition, the Company is developing bill validator as OEM products for financial institutions. All these products for the next generation cannot contribute immediately to business improvement in fiscal year 2010. However, the Company considers them as our anchor products from fiscal year 2011 onwards, and they are necessary for our mid-term growth.

## Capital Investment • Depreciation • R&D Costs

Years ended March 31, 2009 and 2008, Year ending March 31, 2010

(Millions of yen)

	2008		2009		2010 (Forecast)	
	Results	Changes	Results	Changes	Forecast	Changes
Capital Investment	971	(-73)	617	(-354)	1,000	(+383)
Depreciation	873	(-122)	933	(+60)	904	(-30)
R&D	1,424	(-235)	1,534	(+110)	1,209	(-325)

The capital investment was 617 million yen in this fiscal year, including 322 million yen for mold and 105 million yen for the purchase of game machines for the amusement businesses.

The Company plans to increase mold investment to 1 billion yen since high-volume production of new products will increase. About research and development cost for the fiscal year 2010, the Company continues to have a policy to focus on high profitability, it will decrease the investment from 300 million yen to 1.2 billion yen compared to the fiscal year 2009.

## Restructure of Business in Amusement Industry

### ① Market Trend

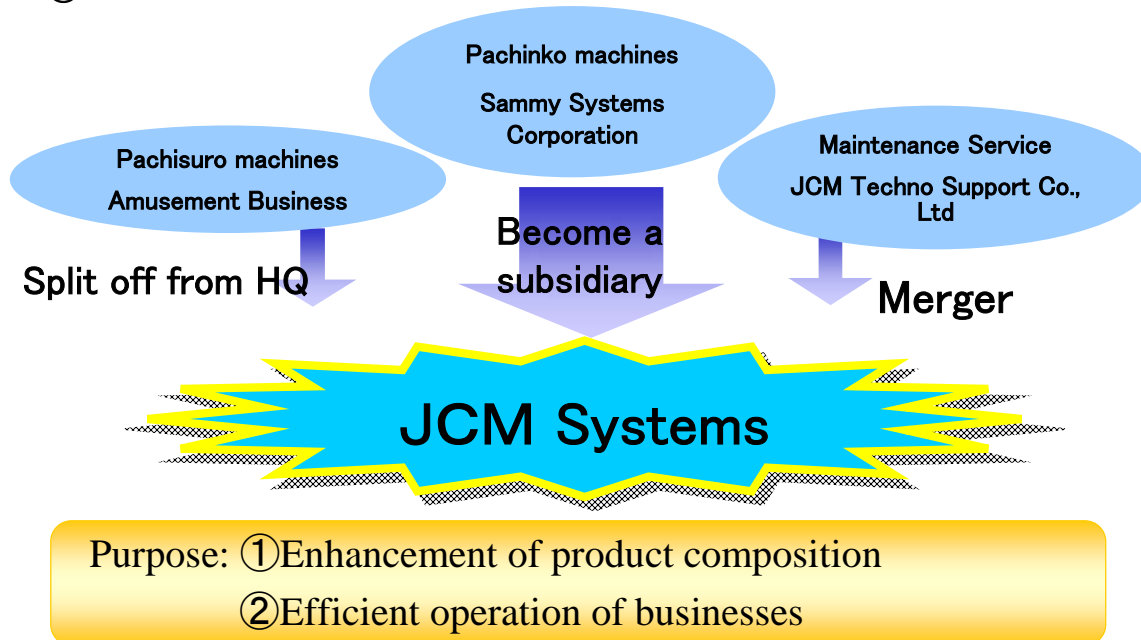

As a part of the investment plan, the company is working on corporate acquisition and restructuring of business in the amusement industry.

As a result of the amusement markets shrinkage, growth of pachisuro-related business, of which the Company is specialized in, is especially sluggish. The number of pachisuro machines in the market decreased by 30% plus, from 2 million machines in 2006 to 1.4 million machines after the revision of gaming machines regulation.

On the other hand, pachinko-related business shows a healthy growth because they have different gambling and gaming elements, when compare to pachisuro machines. In addition, there is a trend that the preference of players will be focused on pachinko machines. Therefore, amusement centers' investments will be focused on pachinko-related fields as well.

## Restructure of Business in Amusement Industry

### ② Consolidation of Subsidiaries & Restructure of Business

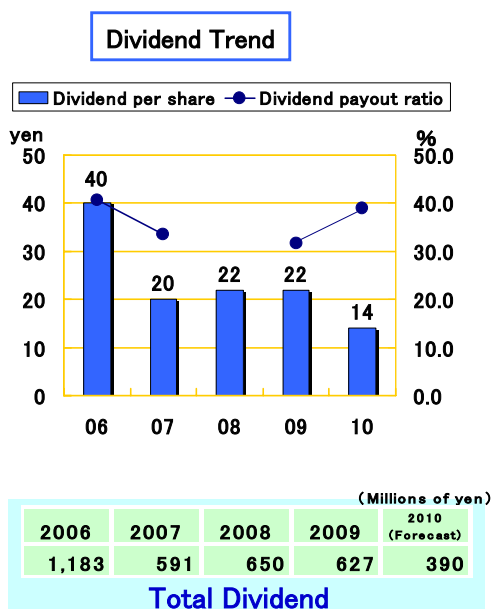

Under the current business environment, the Company thinks that it needs a well-balanced product composition by adding pachinko-related machines or giveaway POS to traditional pachisuro-related amusement products to survive in the amusement industry. Therefore, the Company acquired 100% of stocks in Sammy Systems Corporation, which excels at pachinko-related products, on May 1, 2009.

Sammy Systems Corporation is renamed, and will merge with the Company's amusement business and a maintenance and service subsidiary. The Company continues to focus on profit recovery by practicing effective business operation, enhancement of product composition, and expansion of customers.

We expect that the new company's sales and operating income are 6 billion yen and 100 million yen respectively in the first fiscal year.

These conditions were taken into accounts during the preparation of business plan and forecast.

## Profit Return

**Basic Policy of Profits and Dividends Distribution**  
 “30% plus dividend payout ratio” to link business performance with payments

### Reacquisition of Treasury Stock (2009 Result)

Number of shares acquired 1,760,000  
 Total cost of acquisition ¥1,487 million

### Reacquisition Plan (resolved on May 8, 2009)

Number of shares to be acquired Up to 1 million shares  
 Total cost of shares to be acquired Up to ¥1 billion

Regarding the dividend of this fiscal year, as originally planned, the Company decided to pay a final dividend of 11 yen per share. Annual dividend is 22 yen. As usual, the Company emphasizes payment in accordance with the basic dividend policy of which the dividend payout ratio should be 30% or more. Dividend payout ratio for this fiscal year is 31.7 percent.

The Company had implemented the shareholders special benefit plan in order to return profits to shareholders. This plan also aimed at increasing the number of shareholders; however, the Company decided to abolish the plan since we have already achieved the purpose. Besides, we decided that it is more appropriate to return profits by dividend distribution in the form of cash, based on the company’s dividend policy, considering the administrative cost of the plan.

Regarding the dividend for the fiscal year ending March 31, 2010, we will pay 14 yen per share, taking into accounts the dividend policy and the abolition of shareholders special benefit plan. We expect that the consolidated dividend payout ratio would be 39.0%.

The Company also decided to reacquire its own shares to exercise an agile capital policy due to the changes in management environments. The Company had reacquired its own shares for 1,487 million yen in total, which is 6% of shares issued. In principle, the Company holds its own shares as treasury stocks, and uses them effectively for stock swaps during M&A or employees’ stock options scheme without cancellation of the stocks.

Furthermore, the Company established a new limit of reacquisition which up to 1,000,000 shares on May 8, 2009, and continues to reacquire its treasury stocks.

[Note] Forecasts of business performance, management strategy, and other future events announced in this report are, prepared by Japan Cash Machine, Co., Ltd., reasonably estimated based on the information available at the time of announcement. Actual results may differ from those in this report due to the occurrence of extraordinary events or unpredictable circumstances. The Company will actively disclose important information for shareholders; however, please be reminded not to make judgments with undue reliance on forecasts in this report. Additionally, no part of this report may be reproduced in any form without the prior consent of the Company.

**In the fiscal year 2009, the Company restructured the operation through “selection and concentration” of businesses under the medium-term business plan which was announced before and we achieved some positive results. The declining sales in the North America, caused by price increase and competition, seemed to bottom out except influences of currency exchange.**

**However, economic turmoil in the second half of the year led to further slowdown of markets and unexpected situations, which made the environment more severe towards the end of the year.**

**Under such an environment, the Company considers this year as a year of preparation for further expansion of businesses in the fiscal year 2011. The Company promotes further reduction of fixed costs and optimization. Additionally, the Company will focus its investments on development of new products and restructure of amusement businesses.**

**Thank you for your ongoing support.**
