

Sentry™

SMART ENTRY BEZEL

JCM introduces **Sentry**, the smart bill acceptor entry with LED indicators listing up to six denominations and bar-code, four error indicators, a general fault indicator and a cashbox full indicator. **Sentry** uses brilliant green, orange, red and blue LEDs, easily seen on the casino floor.

Benefits for Game Manufacturers, Casino Operators, Slot Technicians and Slot Players

Bright, color-coded LEDs makes problem detection fast and easy

Last-bill denomination indicator helps settle disputes

Six icons indicate type of service necessary: no cash box access, cash box access required, and remove validator for service

Sentry's functions and appearance enhance game product appeal to both operators and players

Adaptable to virtually any slot machine configuration or software protocol

Sentry™

SPECIFICATIONS
