1.

During the first quarter, signs of slowdown in the pace of worldwide economy downturn were observed after additional economic stimulus package offered by governments and large adjustments in inventories on a global scale.

Meanwhile, market condition of the overseas gaming market, core market of the group, has become more severe with a sharp decline in demand due to reduced facility investment by casinos, after a drastic decrease in casino players. Further, due to the appreciation of Japanese yen, net sales decreased by 33.3 % to 4,280 million yen compared to the same period of the previous year. As these situations were forecasted, the Company made efforts to reduce the inventories in overseas subsidiaries and cut down on fixed costs including personnel expenses. However, these efforts could not offset the decline in sales. As a result, operating income decreased by 84.4% to 189 million yen, ordinary income declined by 84.3% to 231 million yen, and net income decreased by 87.6% to 152 million yen.

Under these situations, the Company takes immediate measures to improve profitability and expand markets from a medium to long-term perspectives, including development of the next generation products and acquisition of stock in a company which manufactures peripherals in the amusement industry, while actively engages in reduction of fixed expenses and improvement of profit structure.

2.

The business performance of the Company decreased significantly compared to the same period of the previous year, sales and income were adversely affected by decline of demand in the overseas gaming industry. However, the Company had forecasted the sluggish business performance and the fluctuation of currency exchange rates, therefore, there is no change would be made to the interim and full-year forecast of business results announced on May 8, 2009. Under the severe business environment, the Company continues to work towards improved management with further reduction of fixed costs and pursues positive result regarding the restructure of the amusement industry business. With these measures, the Company aims to meet the forecast.
